

## Easter Egg Baskets

These little baskets are really fun to make hold up larger eggs quite nicely. If you have smaller eggs you can fill the baskets with shredded paper.

### What you'll need to do this Toilet Paper Tube Easter basket:

- toilet paper tubes
- paint or colourful paper
- scissors
- glue
- Easter eggs

Paint or cover the toilet paper tubes in coloured paper.

Once they dry cut them in half or in a zig zag pattern if you'll make a grass basket like we did (see green basket above).

Cut a long strip of paper and glue it on the inside of the tube so that it makes an arch – this will be a handle.

To decorate your little creations you can also cut the wings and a beak for the chicks, long ears for the bunnies and flowers for the grass (we used the hole puncher to get little circles).
