NOT TO BE EATEN

## 5. Before

Why not look around your world to see 'Before and After'?

For example, in a city, a delivery lorry might be full up when it arrives at the shop.

By the time it is ready to leave, all the contents will have been emptied.

Our key workers have so much work to do to help us live good lives.

Here's another 'Before' photo.

Now draw the 'After' photo.

Well Done!
